CONSULT A HEALTHCARE
PROFESSIONAL.**

What causes ear wax accumulation?

Ear wax or cerumen is a normal secretion of the glands in the ear. However, excessive ear wax may cause a number of unwanted effects including hearing loss, discomfort, pain and coughing.

Hearing loss occurs when accumulated wax occludes (blocks) the ear canal, reducing or preventing sound waves from easily reaching the eardrum.

Discomfort or pain may be evident in cases where compressed wax pressures the ear drum.

How does Audisol[®] Ear Wax Remover work?

Audisol[®] is an effective natural spray intended to dissolve and wash away accumulated ear wax. Using Audisol[®], earwax is dissolved and gradually removed from the ear by using a natural ear cleaning mechanism.

The Audisol[®] spray mechanism ensures optimal dispersion of the solution in the ear canal.

Composition

SODIUM LAUROYL SARCOSINATE , SUCROSE LAURATE, PROPANEDIOL, Excipients q.s. 100%. Preservative-free colored formula. Colored formula of natural origin.

When to use Audisol[®] Ear Wax Remover?

Audisol[®] is indicated for the dissolution and removal of ear wax in the external ear canal for both children 2 years+ and adults.

Warnings

- Audisol[®] Ear Wax Remover should not be used in patients with perforated eardrum, inflamed ears, using grommets, had recent ear surgery or suffering from ear infections.
- Do not spray into the eye. In case of accidental contact with eye, wash thoroughly with running water.
- In case of any irritation or sensitivity, discontinue use immediately and get advice from a medical professional.

- Do not insert tip of the spray too deeply into the ear canal, to avoid irritation.
- Do not swallow. After each use remove the tip of spray and wash thoroughly in warm water.
- **FOR EXTERNAL USE ONLY.**

How to use Audisol® Ear Wax Remover

Tilt head to opposite side of the ear being treated. Spray twice in the ear. Leave for one minute, while massaging the base of the ear. Straighten your head in order to let the solution and ear wax residue run down, then rinse and wipe excess softly.

In difficult cases, straighten the ear canal by pulling the upper ear lobe slightly upward and toward the back of your head. This maneuver allows penetration of the active ingredients to the inner parts of the ear canal.

Use twice a day (morning and evening), for 3 to 4 days.

Storage Conditions

- Store in a cool place. Do not refrigerate.
- Do not expose to temperature over 40°C.
- Keep out of sight and reach of children.
- Use within 3 months of opening. Do not use after the expiry date shown on bottle.
